◆ HEMS (ECHONET Lite) Interoperability Test Center

Various information is displayed when you select the part. (Explanatory text and introductory video, Related website)

**What is the HEMS Interoperability Test Center?**  
The HEMS Interoperability Test Center was established in November 2012 as part of the "Smart House International Standardization Research Project", a subsidized project of the Ministry of Economy, Trade and Industry. In addition to providing an interconnection test environment for "ECHONET Lite," the international standard for smart house
